This information is provided in order for them to provide us with services such as payment processing, advertising services, marketing partners, web analytics, data processing, IT services, customer support and other services such as for the purpose of auditing and fraud investigations.

Related Entities

We may share Personal Data between and among ADP, its subsidiaries, and affiliated companies for purposes of management and analysis, and other business purposes. For instance, we may share your Personal Data with our subsidiaries and affiliated companies to expand and promote our product and service offerings.

Law Enforcement/Legal Authorities

We may be required to disclose your Personal Data to third parties including law enforcement agencies when required and to protect and defend our legal rights, protect the safety and security of users of our services, prevent fraud, respond to legal process (e.g. subpoena or court order), or a request for cooperation by a government entity, including as required by law.

Corporate Transactions

In the event of sale, transfer, merger, reorganization, or similar event, we may transfer your Personal Data to one or more third parties as part of that transaction with the business entities or people involved in the deal negotiation or transfer.

Third Parties With Your Consent

We may share Personal Data about you with other third-party companies if you give us permission or direct us to share the information. We will share Personal Data with authorized agents that you authorize ADP to communicate to.

We do not sell and have not sold Personal Data, including your Sensitive Personal Data, in the preceding 12 months.

Sources of Personal Data

We collect this Personal Data actively (e.g. direct input from individuals) or passively (e.g., website cookies) from you. Additionally, we may also collect Personal Data from human resources systems of record used by your employer, third-party sources, such as our affiliates, business partners, and service providers.

6. Cookies and Other Automatic Data Collection Technologies

When you visit our website or use our mobile applications, we collect certain data by automated means, using online tracking technologies such as cookies, pixel tags, browser analysis tools, server logs, and web beacons.

Cookies. When you visit our website, we place cookies on your computer. Cookies are small text files that websites send to your computer or other Internet-connected device to uniquely identify your browser or to store information or settings in your browser. Cookies allow us to recognize you when you return. They also help us provide a personalized experience and enable us to detect certain kinds of fraud. In many cases, you can manage cookie preferences and opt-out of having cookies and other data collection technologies used by adjusting the settings on your browser. All browsers are different, so visit the “help” section of your browser to learn about cookie preferences and other privacy settings that may be available.

Pixel Tags and Web Beacons. Pixel tags and web beacons are tiny graphic images placed on website pages, in our apps, or in our emails that allow us to determine whether you have performed a specific action. When you access webpages or app functionalities, or when you open or click an email, the pixel tags and web beacons

generate a notice of that action. These tools allow us to measure response to our communications and improve our online offerings and promotions.

Automatically Collected Data. We collect many different types of data from cookies, pixels, tags, web beacons, and other online tracking technologies such as browser analysis tools. For example, we collect data from the device you use to access our website, such as your operating system type, browser type, domain, and other system settings, as well as the language your system uses and the country and time zone where your device is located.

Our server logs also record the Internet Protocol (IP) address assigned to the device you use to connect to the Internet. An IP address is a unique number that devices use to identify and communicate with each other on the Internet. We may also collect information about the website you were visiting before you came to ADP and the website you visit after you leave our site.

In many cases, the data we automatically collect using cookies and other online tracking technologies is only used in a non-identifiable way, without reference to Personal Data. For example, we use data we collect about website users to optimize our websites and to understand general website traffic patterns. In some cases, we do associate the data we automatically collect using cookies and other online tracking technologies with your Personal Data. This Privacy Statement applies to such automatically collected data when we associate it with your Personal Data.

Global Privacy Control. We also process opt-out preference signals, such as the Global Privacy Control (GPC). The GPC is a mechanism that enables consumers to automatically communicate their privacy preferences to opt-out of sale and sharing of their personal information to this website. This ensures that the consumer's opt-out preference is honored through compatible browsers or extensions that support GPC, consistently across all websites accessed through the browser or device you are using. Go to your browser's setting to enable GPC. If enabled you will receive notification or see a visual indication (e.g., banner or pop-up message) on our site confirming that your GPC signal has been detected and your opt-out request has been processed. For information about how to use the Global Privacy Control, please visit <https://globalprivacycontrol.org>.

Do Not Track. Although our website currently does not have a mechanism to recognize the various web browser Do Not Track signals, we do offer consumers choices to manage their preferences that are provided in sections 16 and 17 below. To learn more about browser tracking signals and Do Not Track please visit <http://www.allaboutdnt.org>.

Mobile Applications. Wisely by ADP is part of a mobile application that allows you to access your profile and account, interact with us online, and receive other information via your mobile device. When you download and use our application, we and our service providers may track and collect app usage data, such as the date and time the application on your device accesses our servers and what information and files have been downloaded to the application based on your device number. We use this information to understand how the application is used and improve it.

YouTube Videos. Our website may include embedded YouTube videos. When you click on an embedded YouTube video that video is loaded from a domain operated by YouTube. Although we have enabled the Privacy-Enhanced mode for embedded YouTube videos, which prevents YouTube from placing tracking cookies on your device when viewing these videos on our site, YouTube may collect your IP address and other devices information for their own purposes. To learn more about YouTube's Privacy-Enhanced mode visit the YouTube support page at <https://support.google.com/youtube/answer/171780?hl=en-GB&ref=axbom.com#>. To learn more about YouTube's processing of IP addresses visit YouTube's privacy policy at <https://policies.google.com/privacy?sjid=60584270626491410-NA>.

7. Third-Party Advertising

We use third-party advertising companies to serve advertisements regarding goods and services that may be of interest to you when you access and use Wisely and other websites or online services. You may receive advertisements based on information relating to your access to and use of Wisely and other websites or online services on any of your devices, as well as on information received from third parties. These companies place or recognize a unique cookie on your browser (including through the use of pixel tags). They also use these technologies, along with information they collect about your online use, to recognize you across the devices you use, such as a mobile phone and a laptop.

If you would like more information about this practice, and to learn how to opt out of it in desktop and mobile browsers on the particular device on which you are accessing this Privacy Statement, please visit <http://optout.aboutads.info/#/> and <http://optout.networkadvertising.org/#/>. 9. Shape Security

We use F5's XC Bot Defense (Shape Security) to protect against spam, bots and other automated abuse. This tool may make use of cookies, as well as other information like IP address, date, time, language, screen size and resolution, and mouse movements, while on the page. The use of this service and the treatment of any information collected through the service are subject to F5's applicable privacy policies, available at <https://www.f5.com/company/policies/privacy-compliance-and-practices>.

10. Physical Location

We may collect the physical location of your device by, for example, using satellite, cell phone tower or WiFi signals. We may use your device's physical location to provide you with personalized location-based services and content. We may also share your device's physical location, combined with information about the advertisements you viewed and other information we collect, with our marketing partners to enable them to provide you with more personalized content and to study the effectiveness of advertising campaigns. In some instances, you may be permitted to allow or deny such uses and/or sharing of your device's location, but if you do, we and/or our marketing partners may not be able to provide you with the applicable personalized services and content.

11. Information Security
